good suggestion Lynn. The only draft we have is, in fact, the June 2011 version released for external peer review (though it has since been HEROized). (see attached).

In addition to the list of issues raised in the email below, April and Jason prepared an expanded list with other topics that we'd like the CAST to weigh in on. I don't expect that we'll come close to covering them all at the kick-off meeting, but we want to get them out there for consideration in the near future. (also attached)

FYI, we extended the invitation to the kick-off meeting to others involved in the AN assessment (Karen Hogan, Chris Brinkerhoff, Jordan Trecki, and Leonid Kopylev).

Look forward to our CAST kick-off tomorrow!

Sue

I hope that I have captured the whole team that is on the invite for tomorrow's kickoff meeting. The email below is a compilation that Sue sent around explaining where the assessment stands and some of the main issues. I wanted to make sure that everyone has it.

Last but not least, Sue--could you please send the latest draft --in whatever form it is now--to the team? Don't worry about anything--just send it so that we all have some reference for where we are. If the latest draft is the one that we released to the public for comment last year, then send that around with the charge and fact sheet.

Thanks to all!

Lynn

Subject: Acrylonitrile (AN): questions for management consideration as the assessment is revised prior to SAB review

Lynn, Vince, and Samantha,

The Acrylonitrile team had it's kick-off meeting yesterday (1-10-12) under the direction of the new co-CMs, April Luke and Jason Fritz. We're sending this email to make sure we're all on the same page. In particular, we want to make sure that everyone knows that we will be:

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

We also wanted to raise the following general questions for NCEA management's consideration (we're sure there will be more):

Deliberative Process / Ex. 5

I think that's it for now. We'll keep you posted of our progress! Let us know if we don't appear to be headed in the right direction.

thanks,

Sue (and Jamie, April and Jason)
